Nicaragua and Honduras
Lining Up for Struggle
Because Former Violated
Peace Treaties.

GUATEMALAN CITY, July 21.—According to information reaching here today from Nicaragua and Honduras, these two Central American states are about to become plunged in war. The reason for this is the help given by Nicaragua to the Honduran Revolutionists. The violation by Nicaragua of her treaties of peace has caused indignation throughout all Central Amer-

IT WAS NOT THE ROJESTVENSKY
WHO COMMANDED SHIPS THAT DIED

BERLIN, July 21.—The announcement made yesterday from Bad Nauheim, Germany, that Vice Admiral Rojestvensky, who commanded the ill-fated Russian fleet that was annihilated by the Japanese in the battle of the Sea of Japan in May, 1905, had died there July 19 from heart trouble is incorrect.

A Russian named Rojestvensky did die at Bad Nauheim but he was not the admiral.

TOP PIKES PEAK

Jocular Message by Republicans
to Party Leader Today.

SUMMIT PIKES PEAK, Colo., July 21.—Frank H. Hitchcock, chairman of the Republican national committee, today telegraphed Judge Taft from the top of Pike's Peak as follows:

"Republican leaders from every State west of the Mississippi river join with me in sending you greetings from top of Pike's Peak. We are on top now and expect to be on top when the returns come in next November."

NEW YORK TO CHICAGO
IN 119 HOURS

CHICAGO, July 21.—The Y. M. C. A. relay race which began in New York at 10 a. m. last Wednesday, came to a brilliant close in the City Hall here at 9:38 a. m. today.

The silver tube containing the message from Mayor McClellan to Mayor Busse of Chicago was carried over the final stretch by William H. McCabe of the Evanson Y. M. C. A.

UNWRITTEN LAW
IS HIS DEFENSE

POCATELLO, Idaho, July 21.—Evan Davies, aged 55, a veteran employee of the Oregon Short Line shops in this city was shot and killed while at work this morning by John Ennis, a fellow employee. Ennis, who was immediately arrested, declared that Davies had ruined his seventeen-year-old daughter Davies leaves a widow and a family of grown children or a ranch near Shoshone. The men had been close friends for years. Davies will plead the "unwritten law."

To Investigate
Contractor's Death

LOS ANGELES, July 21.—Chaffey McComb, aged 38 years, a cement contractor well known in this city died yesterday at his home in West Thirty-sixth street after having taken a quantity of cyanide of potassium. His death was not reported to the coroner until today and his brother asserted that the poison was taken accidentally. An investigation will be made prior to holding an inquest.

Looking For
Diamond Thief

PITTSBURG, July 21.—The police have instituted a search for James Rush, who is alleged to have left here with his diamonds and \$100,000. Fashionably dressed and registered at a prominent hotel, Rush ordered a tray of gems sent to the hotel from which to make a selection. With the diamonds, Rush disappeared before the jeweler's eyes.

CLAUDIANES CALLED INTO
COURT ON BIG JIM'S CHARGE

Defendant Nervous; Gets Postponement

Special to The Tribune)

SAN FRANCISCO, July 21.—John Claudianes, the dynamite suspect, was taken before Police Judge Shortall this morning to be instructed on the charge of conspiracy lodged against him yesterday on the complaint of Big Jim Cullinan.

The proceedings were devoid of special interest and were exceedingly brief. Attorney J. W. Scott, representing the defendant, asked for a continuance of the

arraignment until Thursday, which was granted. District Attorney L. N. Johnson appeared for the prosecution and consented to the postponement.

The defendant gave the appearance of being extremely nervous, while in the courtroom and showed signs of the long strain which has been put upon him since his incarceration in the city jail. His attorney has been unable to do anything further to effect his release, as the \$10,000 bonds on which he is held are more than he can secure.

What Part Does Mrs. Gould
Have in the Plot to Get
Evidence in Her Divorce Case?

MRS. FRANK GOULD

PLOTTED TO SMIRCH GOULD

Three Arrests Now Made by
the Police--Seamstress Who
Was to Tell of Gould's
Intimacy With Actress
Weakens.

NEW YORK, July 21.—A story which the police believe will upon investigation reveal a widespread plot against Frank J. Gould, the millionaire already has resulted in three arrests. Those taken into custody were Miss Ben Teel, the wife of a well-known store owner; Henry S. Meusley, a private detective, and Miss Judy Dean, a seamstress.

The examination of the prisoners today was a prelude to the authorities desiring further time to go into the amazing story of Mabel D. Maccausland, a young woman from St. Paul who voluntarily gave to the district attorney the information which led to the arrest.

ALLEGED CONSPIRACY

It is alleged that certain persons conspired to have Miss Maccausland testify at the trial of Mrs. Gould's suit for divorce that Gould had been intimate with an actress.

Miss Maccausland's affidavit, which was read publicly late this afternoon, declared that Miss Teel, in the presence of Mrs. Fleming, fired her \$800 and a monthly allowance in the future if she would sign an affidavit declaring that she had seen Gould in company with Miss Dean on various occasions.

Mr. Teel, son of Mint Director Frank A. Leach, has received the appointment and is now practically in charge of the department. The salary is \$300 a month.

RIOTING IN MINES

Deputies and Negro Miners Engage in Bloody Fight in the Alabama Mining Region.

BIRMINGHAM, Ala., July 21.—A clash between deputy sheriffs and negro miners in the Blue Creek region twenty miles south of Birmingham, in the Birmingham mineral division of the Louisville and Nashville railroad today resulted in one negro being shot and killed and two deputies, Newsom and Whatley, seriously wounded.

The deputies were guarding the hill overlooking the mining town, when they saw armed negroes coming along the road. The deputies called to the negroes to stop, but they offered fight. Two of the negroes raised their guns with precision. The deputies appeared to pick out one man for aim and he was literally riddled with lead.

CREATES EXCITEMENT.

The shooting created much excitement. There was a general distribution of troops throughout the district this afternoon following the trouble. A gatling gun was placed at Republic and one at Blossburg and troops have been distributed so they can be mobilized in a very short time.

The eviction of miners from company houses began at No. 7 mine, Prairie division today. There was no disorder.

Two carbines of strike breakers went out from Birmingham today, under instructions was explained. W. E. Riley, Alabama member of the United Mine Workers in charge of the strike today issued a statement to the operators in which he says the union miners are anxious for peace and compliance of the law.

CARRIERS PASSENGERS.

SAN PEDRO, July 21.—The steamer Anubis reported ashore on San Miguel Island, owned by the Kress Line, and runs between San Francisco and Mexico.

She is owned in Hamburg, Germany, and has a Lloyd charter. Her principal ports are Chile, Havre and Hamburg. She carries passengers and freight.

A telegram was received here by the Wilmington Transportation Company, asking for the services of a tug. None was available and San Francisco has been taken for a tug.

19 PASSENGERS ABOARD.

The Anubis went ashore at midnight Monday night in heavy fog. The vessel had seventy seven persons on board nineteen being passengers. The first and second mates, with a number of the crew, put off in life-boat early yesterday morning and made a landing during the night near Point Conception. They reported that the Anubis was pounding to pieces when they left and would probably be a total loss.

Captain Van Saizer had ordered the crew to begin throwing the cargo overboard.

VALUED AT \$110,000.

SAN FRANCISCO, July 21.—The Merchant's Exchange this afternoon received a message from Point Conception stating that the Anubis is between Santa Rosa and San Miguel Islands. The ship is leaking in two compartments and her fires have been extinguished. The crew is engaged in floating the vessel in the hope of sufficiently lightened. The ship's cargo is valued at \$111,000 and the vessel at about an equal amount.

Point Conception is about thirty miles north of Santa Barbara.

LIFE CRUSHED OUT BY AUTO

Well-Known Pittsburg Man Is

Killed in an Accident.

PITTSBURG, July 21.—Dr. E. C. Gruber, a well-known physician, was instantly killed, and Andrew S. McSwain, manager of Duquesne Garden and the Traction Company parks of the city was severely shocked and slightly injured early today in an automobile accident.

The two men were driving from New Kensington to the city in the doctor's car but at a sharp turn in the road at Springdale, a suburb, the steering mechanism broke and the car dashed over an embankment, turning turtle.

The doctor was caught under the machine and his life crushed out.

IMPORTANT CHANGE
MADE AT THE U. S. MINT

Supt. Sweeney's Brother to Be Made
Cashier and Director Leach's Son to
Be Foreman of Refinery.

SAN FRANCISCO, July 21.—Two important changes will be made in the United States Branch Mint here within the next few days. Foreman Gorham of the refinery department has presented his resignation to take effect within a short time. He is ill and utterly incapable of performing the work. For over a year he has been practically incapacitated. Edwin R. Leach, son of Mint Director Frank A. Leach, has received the appointment and is now practically in charge of the department. The salary is \$300 a month.

Another important change will be made in the cashiership of the Mint. The present cashier will resign and William Sweeney, brother of Judge Edward Sweeney, superintendent of the Mint, will take his place. This change will be made at once. These positions do not come under the civil service rules.

LONG FIGHT AT MINERS' MEETING

After Stormy Debate, Western Federation Reaffirms Allegiance to Industrial Unionism.

DENVER, July 21.—After a fight lasting all day yesterday and until nearly midnight to the satisfaction of the Western Federation of Miners, reached an agreement upon a resolution, reaffirming the faith of the organization in industrial unionism, and pledging the members to its support.

The substitute resolution was introduced by Norman Cameron of Silverton, Colo., and was adopted almost unanimously. It follows: "We, the Western Federation of Miners, in convention assembled, reaffirm our allegiance to the principles of industrial unionism, and pledge ourselves to do everything within our power to bring about unity and solidarity of the working class."

LOCALS DISOBeyed.

The constitution of the order provides that withdrawal cards shall not be issued unless the person is going outside the jurisdiction of the Western Federation, but some of the locals have retained them when the person was only leaving the jurisdiction of the local. This enabled the person leaving one to hold it as long as desired and join another local on the payment of one dollar, where as he should have paid all back dues. A resolution was adopted calling upon all locals to obey the constitution.

War Against Consumption. All nations are endeavoring to check the ravages of consumption, the "white plague," that claims so many victims every year. For instance, there are toughs and colds perfectly and you are in no danger of consumption. Do not let your health be taken, some unknown proportion when Fins' Honey and Tar is safe and certain in results, sold by all druggists.

SCANTLING FALLS AND HITS WORKER

San Francisco Plumber Sustains Fracture of Skull in Peculiar Accident.

(Special to THE TRIBUNE.) SAN FRANCISCO, July 21.—George L. Hatfield, a plumber, living at San Bruno, and employed on the Phelan building, was severely injured at 11:30 o'clock this morning, when a scantling struck him in the head.

One of the workmen on the fourth story inadvertently dropped the scantling, which fell and struck Hatfield, who was working two floors below, on the head. He was picked up and taken to the Central Emergency Hospital, where it was found he had received a lacerated wound of the scalp and a possible fracture of the skull.

LAST CRUISE LED TO CAPTAIN MC GREA'S DEATH

NEW YORK, July 21.—Great regret has been felt here over the death of Captain Henry McCrea of the United States navy, who died yesterday Sunday last. The deceased was in command of the battleship Georgia, when the signal to return of the Atlantic Squadron was made to the Asiatic Coast. Before the fleet started, the captain was suffering from Bright's disease, and it was only because of his indomitable will power and his determination to undergo physical pain in the performance of duty that he was able to be on deck during the voyage. Shortly after the fleet reached San Francisco Captain McCrea returned east and entered the naval hospital in Brooklyn, where death took place.

WOOL FACTORY IS DESTROYED BY FIRE

LOS ANGELES, Cal., July 21.—Fire originating from a defective heat destroyed the wool pulling establishment of the Kaufman-Davidson Company, hide, tallow and wool dealers at 1st Main street, and the Los Angeles river today. The loss is about \$50,000, partly covered by insurance.

For a long time the fire threatened the Standard Oil Company's plant, located directly in the rear. Burninginders were carried for blocks, and at one time the roofs of several houses were smouldering.

Prompt work by the employees of the People's Gas and Coal Company, across the street, saved the plant from taking

CLAIMS HIS WIFE HAS LED A LIFE OF SHAME

Former High School Principal Bitterly Arraigns His Spouse

If the sensational charges brought by Edgar A. Milner, in an answer and cross-complaint filed yesterday against his wife, Clara W. Milner, are proven to be true, it would seem that the former High School principal has been more shamed against than sinning, and that his wife, aided by her son and daughter, have given the unfortunate man enough causes for worry and distress to drive an ordinary mortal crazy.

Mrs. Milner entered the initial plea for separation, claiming that her husband was guilty of habitual intemperance and failure to provide. She claims further that he tacitly agreed to her living a life of shame, provided he was given a share of the proceeds.

BREAKS SILENCE.

Goaded by these accusations, which she claims are absolutely false, Milner has broken the silence of years. In a bitter arraignment he dares his wife to prove any of the charges and tells of one incident after another which has caused him to break away from her and endeavor to live down the fact that he is her husband, according to his answer.

Milner has been on the Pacific Coast for many years, doing educational work. In June, 1904, the misconduct of his wife was first brought to his attention, he says, through a story brought to him of her behavior on a coasting steamer. Suspicious of his wife's description of her trip to Astoria, Oregon, he commenced a personal investigation, which, he claims, developed the fact that she accompanied the proprietor of a saloon throughout the trip, occupying his stateroom on the steamship and spending three days with him in a Portland hotel.

GRANTED FORGIVENESS.

Mrs. Milner had declared that she again appealed to his wife to forsake the life she was living and resume her place in his household. Instead, he claims that she was intoxicated on numerous occasions of her visits to him and at last, in despair, he departed for Seattle.

Milner and his wife were married in Vancouver in 1901, a short time after she had, unknown to him, secured a divorce from Charles Bogard, a brakeman, whom she had married in San Francisco. The father of her children, named Williamson, has been dead for several years.

UNUSUALLY GAY SEASON ON LAKE TAHOE SHORE

SAN FRANCISCO, July 21.—Tahoe is unusually gay this season, according to the accounts of the congenial coterie summering in that part of the country, where informality and out-of-door life are the order of the day.

Dr. Morris M. Herzen, who is a guest at the Tavern, recently gave a bull's-head breakfast at which he entertained friends from all sides of the lake.

The end of this week Mr. and Mrs. Frederick Kohl will give a dance at Idlewild—their picturesque home on the lake, and all of their friends as well as they themselves, will have house parties for the summer.

Miss Leslie Page and Miss May Homond have gone to Canada to join Mr. and Mrs. John Hayes Hammond, and with them will enjoy a two-months' cruise on the Hammond yacht.

Mrs. C. E. Darling (Etta Birdsall) is here on a visit from Nome and is receiving a cordial welcome and the congratulations of her friends, who have not seen her since her marriage. During her stay in San Francisco Mrs. Darling will be the guest of Mrs.

Mrs. Teresa Casserly and Miss Margaret Casserly are home again after a three weeks' visit to Mr. and Mrs. John B. Casserly at their new home in San Mateo.

HEADQUARTERS OF G.D.P. IN CHICAGO

Possibility That Republican Committee Will Center Campaign in Windy City.

CHICAGO, July 21.—Chicago will possibly be the headquarters of the Republican Congressional committee as well as the center of activity for the Presidential ticket. A conference of the Congressional leaders was held yesterday at the Union League Club, and another meeting will be held late in the week.

Speaker Joseph G. Cannon, Congressman William B. McKinley, Congressman Henry C. Lousdorfer of New Jersey and Senator James Deasaur of Indiana were present and went over the list of States in which the work of the Congressional committee will be centered.

BURDEN OF WORK IN WEST.

It was agreed that the burden of the work will fall in the West, for this reason it was thought advisable that the headquarters of the committee be established in Chicago.

When the conference return it is possible that an agreement will be reached as to the chairman of the committees to succeed James Sherman, the Vice Presidential nominee. Congressman James Fairweather will be present at the second conference.

AT HOME AFTER HONEYMOON TRIP

Belle-Ondine Photo.
MRS. HARRY CARLETON.

Couple Passed Several Weeks Traveling in the Northern Part of the State.

Mr. and Mrs. Harry Carleton have just returned from their honeymoon trip and are staying at the Metropole. The young couple passed several weeks traveling in the northern part of the State and made quite a visit to Shasta Springs.

The bride, of U. Carleton and Miss Ruth Potts of Alameda was a prominent social event, for both of the young people are prominent in social and educational circles. Mrs. Carleton is a graduate of the University of California and was connected with the Alameda school department until she resigned at the time of her marriage.

PAST HISTORY.

Arriving in Oakland, Milner states that he again appealed to his wife to forsake the life she was living and resume her place in his household. Instead, he claims that she was intoxicated on numerous occasions of her visits to him and at last, in despair, he departed for Seattle.

Milner and his wife were married in Vancouver in 1901, a short time after she had, unknown to him, secured a divorce from Charles Bogard, a brakeman, whom she had married in San Francisco. The father of her children, named Williamson, has been dead for several years.

RULES OF THE GAME.

Mrs. Milner had declared that she was ill at the depot and was under the care of the matron for several hours. When confronted with proof of her guilt, however, Milner claims that she confessed all and begged for another chance. This he granted, pleading with her that she relinquish her several years.

ROBERTSON'S RESOLUTION.

The reference of the subject and other features also to the district attorney was brought by the adoption of the following resolution which was introduced by Supervisor Rowe and adopted by the board:

"Resolved, That the board of supervisors be granted the right of this board to form a separate Senatorial sub-convention to

granting the request, although Council Clerk Cook said that he would like to have two days with the District Attorney to prepare the call.

Supervisor Rowe then moved that he

matter be continued until next Thursday at 2 o'clock in the afternoon. The motion prevailed unanimously.

There was a short session of the board at which a small amount of business was transacted.

STONYBROOK SCHOOL.

The trustees of Stonybrook School indicated that that district had held an election for the purpose of having a special tax levied for school purposes. The report was referred to the district attorney for the purpose of nominating a candidate for State Senator in and for the Fifteenth Senatorial District of the State of California as follows:

Then is shown the apportionment of

delegates.

There was no opposition to

the granting of the request, although Council Clerk Cook said that he would like to have two days with the District At-

torney to prepare the call.

J. S. Josselyn, one of Taylor's attorneys, prepared the following statement for publication yesterday:

"There is no element of prosecution rather than of preclusion. There is not one element of crime in it and it is only a business transaction. This prosecution is an effort to make of the police court a collection bureau, for if the defendant had complied with the demands, coupled with threats, made by his prosecutors nothing would ever have come of the matter."

The defendant is treated worse than the alleged victims, for he is out of bounds by the manipulations of the former agent for the county.

"In my opinion the holding of the defendant to answer to the Superior Court is not in accord with either law or justice."

REGISTER BEFORE TOMORROW NIGHT FOR THE PRIMARIES

Many Electors Will Be Disappointed If They Do Not Act at Once

The familiar cry of "Register Now!" will be stilled tomorrow night at the stroke of twelve, after which those who may have desired to vote at the primary elections will have been disqualified if they have not appeared at one of the registration offices or given their name to a deputy. In order to offer as wide an opportunity as possible to voters who wish to register today and tomorrow the registration booths at the office of the county clerk will be kept open this evening from 7 p.m. to 8 p.m. and to-

morrow from 8 a.m. until midnight. Thus there will be no excuse for a voter failing to register because of the hours during which he may be detained at his work.

A large number of men have been pouring into the registration office during the past few days and it is predicted that the count will exceed 10,000 on the large primary registration night.

So far more than 40,000 votes

have been registered.

Many electors have signified their intention of voting next month, which far exceeds the numbers recorded two years ago.

PRIMARY CALL STILL WITH DISTRICT ATTORNEY'

Opinion Is Expected Thursday Afternoon

The questions which arose yesterday in the meeting of the Board of Supervisors, affecting the call for the coming primary election which is to be held in Alameda county on August 12, and which were referred to the district attorney are still in abeyance and will so remain until Thursday next, when the district attorney, who is now out of town, shall return and make his report to the supervisors who have taken a recess for that purpose until Thursday next at 2 o'clock p.m.

PROPOSED AMENDMENT.

One of the questions involved is the proposed amending of the call for the primaries which was suggested at yesterday's meeting of the board by Attorney George W. Reed, the proposed amendment being as follows:

"That, in the petition of the Republican party as presented by your petitioners and filed with your honorable body on the 10th day of July, 1908, an error occurs in the description of the subdivision of the local (county) convention for the purpose of nominating a candidate for State Senator in and for the Fifteenth Senatorial District of the State of California and said petition is hereby modified and amended so far as the same relates to said subdivision of said local (county) convention for the purpose of nominating a candidate for State Senator in and for the Fifteenth Senatorial District of the State of California as follows:

"Resolved, That the board of supervisors be granted the right of this board to form a separate Senatorial sub-convention to

granting the request, although Council Clerk Cook said that he would like to have two days with the District At-

ANNOUNCEMENTS.

A TIME EXTENSION OF PUBLIC INTEREST

Owners of Warehouse Property at Franklin and Bush Streets Grant a Little More Time to Kohler & Chase.

Our sale patronage of the past week proves conclusively that the people of the Pacific Coast find satisfaction in dealing with a store that advertises what it has and always has what it advertises.

The sale itself demonstrates another thing definitely. No matter how quiet a season may be—a matter how dull times are considered—the honest offering of dependable goods will command the instant attention of scores of people who always have sufficient funds when the figures are tempting enough.

The general public is quick to discern the truth and honesty underlying a printed statement and the motive for its publication.

This is why our Warehouse Clearance Sale is breaking all records for July business. This is why we are selling more piano in the duller month of the year than we would ordinarily sell in the best months.

Kohler & Chase are the times on a sound scale. When this house holds a sale there is an especial reason for it. Therefore, the response is always general.

The owners of our warehouse property at Franklin and Bush street have granted us a slight extension of time. The unmatched piano values which have prevailed during this Warehouse Clearance Sale will continue for a little longer.

USED PIANOS.

Here are a few prices on slightly used pianos. We have a number of cases of the make mentioned—only a few of some.

National German make, rosewood \$35; Smith & Charles, \$30; Joseph Schmitz, upright, w/white parlor grand, \$135; Chester, \$135; Winthrop, \$135; Brewster, \$185; Hoffman, \$195; Hobart M. Cable, oak, largest style, \$195; a mahogany Kimball, \$215.

Reheber's sale is being held at the Kohler & Chase store, the oldest and most reliable piano dealers on the coast. Stutter and Franklin Streets, one block above Van Ness. On San Francisco, 1015 Broadway, in Oakland.

See That Your Name Is on Great Register

If you wish to vote at the coming election in November and have not already registered, neglect that duty no longer. If you registered last year, that does not entitle you to vote this year. You must have registered since the beginning of the year or you will lose your right to vote November. You are entitled to vote at the primaries; your name must be on the great register not later than July 22. Do not put off your duty as a good citizen, go to the office of the county clerk's office and register.

In order to vote at the Presidential election in November your name must be on the register not later than September 23.

All persons should remember that when they register they must state their party affiliation, otherwise they cannot vote at the primaries under the law of the State.

If you have changed your residence since registering last year you cannot have a change made on certificate, go to the office to vote at the primaries in August. You must register.

the evening through the medium of William J. Bell.

Mr. Bell, who is a member of the county committee, visited Republican headquarters during the night and created a sensation when he informed his colleagues that Thomas Magee, a henchman of League Lieutenant Burns, had offered him a political job and \$500 to desert the organization.

In his conversation Bell said Magee and Pinous came to his home last Wednesday night shortly before 8 o'clock, but found him out and tried their best to have his wife assist them in getting Bell to change sides. They told the wife, said Bell, that he would get a fine political position. Bell states he was in hiding and tried to avoid Magee and Pinous, but ran into them on Market and Seventh streets, and they walked toward the Pacific building in the hope of winning him over.

Bell further states that Magee came to the house, and, taking him in a bedroom, whispered that Ben Levy, a fellow member of the committee, would fall for \$300, and Bell laughed at the proposition. He says Magee then offered him \$600 and a fine political job, but Bell declined.

"Well we saw twice. He spoke pretty much as Gerecke did, promising not to attend the meeting, but later he rang us up, stating that he had changed his mind and had decided to attend. Mr. Spreckels was not present at any meeting save the one with Gerecke.

I do not know, of course, whether he saw these men personally at any other time.

Gerecke, I understand, identified the county committee as endeavoring to line up many members for him and that side of the cause I had espoused. It was plain, practical politics on my part and nothing more."

SAYS DISCARDED SUITOR ROUNDLY CURSED HER Young Woman Swears to a Warrant

Alleging that the man she had promised to marry had roundly cursed her upon learning that she had eloped, mind as far as her earlier intentions were concerned, Miss Etta Crowder of 764 Telegraph avenue, appeared at the prosecuting attorney's office this morning and swore to a complaint on which a warrant for the arrest of James Featherstone, charging the use of vulgar language, was issued.

Miss Crowder, an attractive young woman of the blonde type, blushed becomingly this morning as she related her experience to Prosecuting Attorney Clark. She admitted that she had engaged to marry Featherstone, but, as is a woman's right, had changed her mind. She did not go into details as to what led her to the decision to remain single, but she was positive in her assertion that Featherstone had overstepped the bounds of etiquette by using language to her to which she took exceptions.

After discussing the affair with friends Miss Crowder determined to make an example of the man for the benefit of womanhood and swore to the complaint on which the warrant was issued.

ACCUSED OF STEALING A CASH REGISTER

George Ward, who was recently arrested for having a cash register in his possession and who failed to give a satisfactory explanation of the affair, was this morning charged with burglary on complaint of G. S. Gordon, proprietor of restaurant at 1757 Seventh street. Gordon identifying the register as his and alleging that Ward, colored, had entered the place and carried it away.

BIGGY IS MUSICAL CENSOR

Takes an Old Precedent to Stop Advertising Band Wagon of the New Afternoon Paper.

(Special to The Tribune.)

SAN FRANCISCO, July 21.—The large four-horse band wagon which was sent out to advertise the Evening Globe, the new San Francisco newspaper, but not proceeded very far along Market street this morning before it was stopped by police officers acting under the instructions of Chief of Police Biggy and fourteen musicians were arrested and taken to the city prison.

AN OLD ORDINANCE.

The ordinance quoted by the chief in support of what would seem to be a rather high-minded action is number 1385, which was passed by the Board of Supervisors in 1904. The original intention of the city fathers in making the ordinance seems to have been to prevent nuisances and fake advertisements, but Chief Biggy says he has no way of so interpreting the law and in accordance the arrest was made.

As there was no one on hand to bail out the musicians they were forced to remain in the prison till nearly noon, while the gaily decked tallyho stood waiting in front of the Hall of Justice.

PARISHIONERS TO HOLD BIG PICNIC

One of the features of the picnic will be the refreshment booth.

Lunch will be served to all those who avail themselves of the pleasure of a day's outing at this beautiful spot at a very nominal price.

The following ladies have charge of the affair: Mrs. L. Kelly, chairman; Miss Gertrude Hanley, secretary; Mrs. E. Trout, Mrs. M. Spencer, Mrs. Hanley, Mrs. N. J. Collins, Mrs. J. Lamping, Mrs. Brady, Miss Agnes Kearney, B. Beauchamp, L. Kelly, H. White.

DELEGATES WILL LEAVE TOMORROW

California Representatives of Independence Party and Their Will Have Special Train to Chicago.

The California delegates to the Independence party—convention leave Monday and start from San Francisco at 9, arriving in Chicago the 27. They will go by way of the Southern Pacific to Ogden, over the Denver and Rio Grande to Denver, over the Union Pacific to Omaha, and thence by Illinois Central to Chicago.

The delegates from Seattle and Portland will join the San Francisco group at San Joaquin July 24th. The Washington men will join the Oregon delegation at Reno. The train, when it leaves Denver will have on board all the delegates of the States of Washington, Oregon, California, Nevada, Wyoming, Colorado, Montana and Utah.

Many of the members will be accompanied by their wives and families.

ALICE SINGS "TAMMANY" TO DELIGHT OF BRAVES

President's Daughter Pleases Democrats at Yellowstone.

DENVER, Colo., July 21.—A good story of Princess Alice Longworth is told by a member of the Tammany delegation which went to the Yellowstone after attending the national convention here and returning to the West.

For J. Doolin, Dan Smith, Judge Peter Schenck James Oakley and Frank Goodwin were in the party and say that the President's daughter not only held out the glad hand but joined them in singing "Tammany" and other war songs the braves love. Doolin says that while he and his comrades were making the party with a gay step, suddenly there bore in sight a stage coach coming from the opposite direction. A vision in tan-colored hunting suit was seen to alight and with majestic mien signal forth the familiar sound "Tammany, Tammany."

"Of course, we did not know then that it was the President's daughter," said Doolin tonight. "If we recognized right justly. Before we knew it, everybody in the other stage coach was singing 'Tammany' and Nichols Longworth was the jolliest of the bunch."

DEATH SUMMONS MRS. ELINORE KNOWLAND, BELOVED WIFE OF CONGRESSMAN J. R. KNOWLAND

Due to a Sudden Attack of Heart Failure

With only short premonition of the seriousness of her illness, Mrs. Elinore Fife Knowland, wife of Congressman J. R. Knowland of the Third Congressional District, passed away from heart failure at her home, 1548 Everett street, Alameda, yesterday afternoon at 5:45 o'clock. The sad news was soon circulated in the neighborhood of the home of the deceased and caused profound regret wherever it was received.

General Grief Is Felt.

The deceased was known almost to every person in the community. It had not been known that she was not in robust health. Besides, the suddenness caused friends and neighbors to express sympathy for the bereaved husband who was notified of the seriousness of his wife's illness while attending a meeting of the Bank of Alameda, with which he has been connected for a number of years.

Only about three weeks ago, from the same home from which came yesterday the sad news of bereavement, was sent forth the joyous announcement that a son had been born to the parents and the Congressman and his esteemed wife were showered with the congratulations of friends. The pleasure was all the greater when it was announced that Mrs. Knowland was enjoying excellent health.

Recent Attack of Illness.

Several days ago, however, Mrs. Knowland sustained an attack of pleurisy which seriously affected her right lung but, a convalescence followed and it was reported both by her physicians and friends that she had once more regained her normal strength and health. Yesterday, she felt that she might again take part in the duties of the home to which she was passionately devoted. While about to take luncheon, she suddenly cried out in intense pain. The cry brought her attending nurse to her side. Mrs. Knowland collapsed in the arms of the woman and complained that she was suffering great pain in her heart.

Dr. T. P. Tisdale and other neighboring physicians were summoned and responded instantly, to find her suffering from heart failure. The most that could be done was to try to maintain life for a short time and she finally died in about two hours.

At the time Mrs. Knowland was so painfully stricken, her husband who had supposed that his wife was in a reasonably fair condition of health was at the Bank of Alameda. When Mr. Knowland reached his home he was met by the attending physicians and informed that the end would be experienced before long. The final parting was sorrowful in the extreme, all the members of the family of the deceased being present at the time.

Death Sunderns Ties of Love.

The death of Mrs. Knowland has severed the tenderest of ties which have existed between the deceased and her husband from youth, because they became lovers when both were students at the University of the Pacific at Santa Clara. At that time the deceased was Miss Ellinore Fife, and her home was in Tacoma, Washington. As a result of the attachment between the young people, Mr. Knowland and Miss Fife were married at the home of the bride's parents in Tacoma, April 3, 1894. The bride was the daughter of the late W. H. Fife, who died some time ago in the home of his daughter in Alameda. Mrs. Knowland's mother, however, Mrs. W. H. Fife, as also Mrs. Knowland's sister, Mrs. Minnie Smith, are residents of Auburn, Washington. The deceased was also the sister of Colonel W. J. Fife of this city and of George W. Fife of Clinton avenue, Alameda.

Home and Public Life.

Mr. and Mrs. Knowland established their cozy home in Alameda and, as the years sped by, Mrs. Knowland ingratiated herself with the ladies of education, culture and refinement by whom she was surrounded and of whom in later years she was in a modest way a leader. In this ingratiating she duplicated the success of her husband among the stronger sex of the community.

Mrs. Knowland was intellectual to a great degree and, while he did devote himself in a prominent manner to club life, because of her greater love for the comforts of home, at the same time, she kept abreast of the times by private study along all womanly lines and in this study, her discrimination was of the highest and her appreciation of the keenest of character.

With Her Husband Always.

Since Mrs. Knowland's husband entered upon his successful career, the deceased found the greatest pleasure in encouraging him in his purpose to give some of his time to the service of the people, not for his own aggrandizement, but for the elevation of the masses and guaranteeing purity in the administration of public affairs.

When Mr. Knowland's duties as a member of the assembly or of the upper house called him to Sacramento in this State, Mrs. Knowland was at his side. She was frequently in attendance at the sessions of each house and took the keenest delight in the laudable efforts which her high-minded spouse was making for the welfare of the people.

During the sessions in which Mr. Knowland represented the Third District of the State in the House of Representatives in Washington, in which position he has distinguished himself in a manner which has caused old-timers at the capital to marvel. Mrs. Knowland was ever present and the effect of her presence was consoling and inspiring to the husband as it was a source of pleasure to the ladies of culture and character with whom she came in contact.

There was a gentleness in Mrs. Knowland's bearing and disposition that had an indefinable charm.

Genial and Friendly Nature.

Wherever she went she was accompanied with a geniality which influenced those around her and made cheery what otherwise, at times, would have been formal and frigid occasions. With her death has gone the sprightliness, the brilliancy and light of many circles of friends in various parts of the country and from those circles, as also from persons in business, professional and political life in all parts of the country goes out heart-felt sympathy for Congressman Knowland as also to the bereaved children, Ellinore, aged 18 years; Russell, aged 6 years, and the infant son, for the irreparable loss they have sustained.

The funeral will take place tomorrow at 2 p.m. from the family residence.

OAKLAND MAN INVENTS CLEVER SLEEPING TENT

FILTERS AND GATHERS THE NIGHT AIR AND AT THE SAME TIME PROTECTS SLEEPERS AGAINST DRAFT

P. Thoms, an expert awning maker in charge of the tent and awning business of T. Dahl & Co., 678 Eighth street, has invented a sleeping tent that is attracting a great deal of attention from the medical profession of this vicinity.

The idea originated with Thoms in his endeavor to rig up an arrangement for his own room and resulted so satisfactorily that he is making them now for everybody and figures that a fortune awaits him, as the public are beginning to realize the advantages of breathing night air and cannot get along safely without some such contrivance as Thoms has invented.

"The idea is just this," said Thoms to a representative of THE TRIBUNE yesterday. "You move the bed up next to the window. This sleeping tent is built to fit your window and half of it extends on side the window—the other half extends inside the window and over the bed. There are also drop curtains which come down on all sides of the bed to keep out the draft. By this plan you get a direct column of air from the outside and still no draft. I have also arranged a set of air filters which go between the sleeper and the open window, and clean and purify all the air. The danger in sleep-

ing out of doors lies in the dirt and impurities that are in the air, and in the fact that most of us sleep with our mouths open."

Mr. Thoms is an enthusiastic advocate of fresh air during sleeping hours and takes great delight in his bedroom sleeping tent, because it enables those living in hotels and apartment houses as well as those who have no sleeping porches on their homes, to practically sleep out of doors as far as the benefits of oxygen are concerned.

T. Dahl & Co., the firm represented by Mr. Thoms, are particularly able to get these sleeping tents up in large quantity, for they already have ample facilities for all the work necessary. For many years they have been manufacturing awnings, tents of all kinds, flags, mechanical canvas aprons and, in fact, practically everything that is made of canvas. Mr. Thoms himself is an expert at the business and is the same man who invented the automobile garage tent which is creating such a furor among owners of autos.

These bedroom sleeping tents are made to order to fit your window and can be put up in a few moments by anyone. Mr. Thoms has placed a price of \$12.00 each upon them and will make deliveries immediately if you'll call up Oakland 6521.

PROTEST AGAINST FEES DEMANDED

Oakland Hotel Company Says Exactions of Commissioners Are Exorbitant.

Attorney Black appeared at the meeting of the city council last night to protest on behalf of the Oakland Hotel company against the fees asked by the commissioners in the matter of opening Fourteenth street from Harrison to Allee streets.

The protest was sustained, the council adopting a resolution to the effect that the fees of the commissioners be allowed under the schedule recommended by the committee of the whole to the city council.

PERSONS ASSIGNED.

The protest was as follows: The Oakland Hotel company, a corporation, being a property owner and owning real property affected by and assessed for taxation by reason of the proposed opening of Fourteenth street between Harrison and Allee streets in this city, objects to and hereby files its written objections to the report of the commissioners appointed by your honorable body for the purpose of assessing benefits and damages and having general supervision of said proposed work and for cause why such report should not be confirmed specify:

That the amount of \$80 charged as attorney's fees is exorbitant, unreasonable and out of proportion to the services rendered and should not be confirmed.

CALLED UNREASONABLE.

That the amount of \$400 charged as commissioners' fees is exorbitant, unreasonable and out of proportion to the services rendered and should not be confirmed.

That the amount of \$80 charged for services of secretary is exorbitant, unreasonable and out of proportion to the services rendered and should not be confirmed.

FEES ADOPTED BY BOARD.

The commissioners' fees as fixed by the council, the fees being based on the values of property taken and improvements damaged shall not exceed seven per cent on the first \$1000 value involved; four per cent on the next \$5000 value involved; three per cent on the next \$10,000 value involved; two per cent on the next \$30,000 value involved; one per cent on the next \$60,000 value involved.

These percentages are to be divided equally among the commissioner, the attorney's fee not to exceed of that of the commissioner's.

The compensation of the secretary is not to be in excess of fifty per cent more than the compensation allowed a commissioner, the minimum fee for commissioner, attorney or secretary not to be less than \$100.

GETS SENTENCE FOR BURGLARY

Ex-Newsboy Is Jailed on a Serious Charge.

SAN DIEGO, July 21.—Frank Smith, the seventeen-year-old youth who made an attempt to wreck the Santa Fe train near Oceanside, was brought to the county jail by Constable Ree, having been bound over for trial in the superior court by Justice Nugent, held being fixed at \$2000, which the youth was unable to give.

Smith's downfall is said to be due to the influence of drugs. Although only 17 years old, it is said that he is an inveterate user of morphine and because of his use of the drug he was discharged from the service of the Santa Fe company. He was formerly news butcher on the run to San Diego from Los Angeles.

In making his confession to Constable Ree, it is claimed that Smith said he was so high on morphine at the time he was ejected from the train that he was angry at everybody and that he planned revenge on the railroad company by trying to wreck the southbound train.

EASTERN MARKETS DEMAND MORE CALIFORNIA PRODUCE

Sacramento Truck Farmers Are Profiting From Lack of Fruit in Middle West.

SACRAMENTO, July 21.—Never before in the history of the State has the demand for produce been so great as at present. The eastern and middle western states are drawing on California produce by railroads and by express the railroad companies busy shipping the grain-sentiment. Not only is the activity in the produce line more than normal, but the demands for fruit are also greatly increasing.

The floods in the States of the Middle West destroyed almost all the produce, and the California market has been called upon to make up the shortage. From three to five cars are shipped daily from Sacramento alone, besides sending a large part of the produce demands in the State. Every river steamer is loaded with produce for the east markets.

ONE OUGHT TO KNOW

HOW TO STRENGTHEN THE ORGANS OF DIGESTION.

A Course of Treatment That Really Cures Indigestion Instead of Merely Relieving Symptoms.

There are plenty of remedies by which you can relieve for the time being burharts, pain and gas on the stomach, and can smother nervous sensations and induce artificial sleep. But when you take your next meal all your troubles begin afresh.

There is only one sensible thing to do. Strengthen the stomach and do away with the necessity for drugs and artificial foods. The stomach once in proper condition will do its own work better than any process devised by man can ever do it. When it is again strong don't abuse it. Learn to choose natural food in general, and to study the effect even of that, as yours may at best be a freakish stomach.

Mr. John N. Dietrich, of 231 East Morris street, Indianapolis, Ind., tried a treatment that has cured thousands and says:

"About four years ago I began to have stomach trouble, which I always thought was brought on by irregular eating and sleeping while working on the street railways in this city. My condition kept growing worse. I had severe cramps in the stomach if I ate the least thing, even a drink of water would cause them. The cramps often doubled me up so that I couldn't straighten up for some time. Often I would sit still doing nothing to go to bed. I didn't have much of an appetite and I was constantly belching gas and sour fluids after everything I ate. I was troubled a great with constipation and dizzy spells. My blood seemed to be out of order and I had headaches which seemed almost like neuralgia. I was in a bad state and I was in bed for over a week at one time."

The doctor's medicine did me no good and upon advice of a relative I began to take Dr. Williams' Pink Pills. Although I had been sick for nearly three years, I felt better right away after taking the pills. My appetite picked up and I haven't had a dizzy spell since. My bowels are regular and I feel fine in every way. I recommend Pink Pills to everybody I can."

While an apparently effective, Dr. Williams' Pink Pills are entirely harmless. Every dyspeptic should read "What to Eat and How to Eat." Write today for a free copy of the booklet.

Your druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Co., Schenectady, New York.

WEALTHY MAN TO WORK IN MINES

Kingdon Gould to Don Hobnail Boots and Corduroy Trouzers at Goldfield.

NEW YORK, July 21.—Kingdon Gould, the second son of George Jay Gould, will discard the appurtenances of wealth today, when he leaves for a long study and experimentation in the mining camp of the West. He discarded his valise and his town clothes for corduroy and hobnail boots. When he is not piling the rocks for "surface indications" he will be riding in shafts in the interior of the earth.

Young Gould did not receive his diploma from the Columbia School of Mines last spring owing to his frequent attacks of illness during his sophomore year. He has again started to make up his lost time and last week he left his parents in Paris to return to work. Professor King of Columbia will accompany him. He will study in Goldfield, Tonopah and Cripple Creek.

BURGLARS BREAK INTO A BROADWAY SALOON

Burglars broke into the saloon at 811 Broadway owned by Sis Flanigan at an early hour this morning and although no place was ransacked by the thieves nothing of value was taken. An entrance to the place was effected by prying open the rear door. Suspicion attaches to a hanger-on about the saloon.

BOWLER IS ROBBED OF HIS VALUABLES

Mrs. Hellman of 823 Twenty-third street reported to the police this morning that while bowling in an alley at 460 Ninth street Saturday night a watch and chain and a diamond set locket, all to the value of \$25, were stolen from his coat, which was hanging on a hook in the place of amusement.

The Wilhelm and Claudianes Cases.

William J. Burns professed to be very confident that Wilhelm, the race track frequenter who was commissioned by an agent of Burns to make some bombs, was the man who blew up the Gallagher houses. Wilhelm was secretly arrested at the instigation of Burns when he went to San Francisco to deliver the explosives, and after a few days' detention was as secretly discharged with the injunction to keep his mouth shut.

When this story finally leaked out the alleged graft prosecutors had Wilhelm again arrested and confined for a period in the Oakland city prison. The same sort of stories now being circulated as proof that Claudianes is the guilty party were put afloat as evidence of the guilt of Wilhelm, who, like Claudianes, is an impious waif, low in the moral and social scale. The purchase of dynamite at Pinole was fixed on Wilhelm by the Burns agent who engaged him to manufacture bombs. The same tactics were pursued with Wilhelm that are now being pursued with Claudianes. Gallagher was sure Wilhelm was the right man.

In the second case as in the first, the object appears to get some sort of an alleged "confession" that will implicate some of the persons indicted in San Francisco on the testimony of Gallagher and his boodling associates at the instigation of Spreckels, Heney and Burns. It is the old trick of playing upon the fears and greed of dissipated men of evil associations and dissipated lives to secure from, under promise of immunity, statements incriminating others.

And by the way, what has become of the bombs that Wilhelm manufactured at the order of Burns? Wilhelm was crafty enough not to put any explosive in the bombs, but the missiles were so constructed that nitro-glycerine or gun cotton gelatine could be poured into them. Those bombs were manufactured and taken from Wilhelm prior to either explosion. What became of them? At last accounts Burns was reputed to have them in his possession. Have they been utilized and for what purpose?

Imprudence on the Cattle Ranges.

The range stockmen of the West are an improvident, short-sighted lot, hence they suffer heavy losses every time there is a dry season or an unusually severe winter. In Eastern Oregon stock on the ranges are suffering from water because the snowfall last winter was light and the streams have dried up in consequence. Yet the disastrous effects of water famine on cattle are easily avoidable. At comparatively little cost small emergency reservoirs can be constructed that would afford an abundance of drinking water for stock. But the stockmen will not go to the trouble and expense, trifling though it be, to insure themselves against loss by drought. They see their cattle perish of thirst or grow thin from insufficient water without learning a lesson that should be obvious to humanity and self-interest. They overstock their ranges and leave the elements to water their herds, well knowing the meteorological vicissitudes of the inter-mountain region. Whenever the fall of rain and snow is light feed is poor and water scarce, and hence the ensuing summer and winter are hard for stock. Insufficient nutrient and water find cattle at the approach of winter weak and emaciated and in sorry condition to withstand the rigors of weather that would be harmless to a strong, well-fed stock. These facts have so often been demonstrated that it seems superfluous to again bring them to the attention of men who have been conversant with them for years. Nevertheless, the same old slipshod way of trusting to luck and neglecting the most primary of business precautions continues to prevail. Periodically the same story comes from the ranges of cattle dying of thirst in summer and starving for feed in winter. Often there follows a companion story of an abundance of rich feed when the ranges have been denuded of stock by death or driving away. Yet orthodoxy and enterprise can obviate greatly if not wholly these unprofitable extremes in the cattle business.

A few of the more vociferous Lincoln-Roosevelt League organs continue to vehemently assert that the regular Republican organization is knifing Taft. It is to be noted, however, that the Democratic papers, with hardly an exception, are boosting the league and disowning the regular Republicans. Papers like the Fresno Republican and Los Angeles Express pretend that the Democrats are fighting their friends and assisting their enemies. This ostrich-like pose is exposed by the community of interest plainly manifested by both the Democratic and Lincoln-Roosevelt organs.

The conviction that Taft's election is a certainty is contributing greatly to the business revival, evidences of which are numerous all over the country. Among the proofs of greater activity in the industrial field are resumption of railroad construction on several lines, the increase in the working force of many manufacturing establishments and the projection of new building operations on an extended scale.

A clever saying that explains his refusal to accept the Vice-Presidential nomination is ascribed to Judge Gray. He is reported to have said to a friend that the "Vice-Presidency has all the deprivations of a monastery and none of the consolations of religion." But the experience of John Tyler, Millard Fillmore, Andrew Johnson, Chester A. Arthur and Theodore Roosevelt would seem to indicate that the office offers at least a reasonable hope of salvation.

It is not surprising that interference with the attempt of Burns to disqualify all veniremen suspected of wanting in sympathy with the private prosecution should be regarded in some quarters as a high crime, or that it should be put forth as axiomatic that every man who objects to be tried by a packed jury before a partisan judge thereby confesses his guilt.

A Minnesota pastor was ousted from his charge because his wife went through the cakewalk at a church picnic with the superintendent of the Sunday school. The stern Puritanism of New England seems to have gained a foothold out West.

The telegraph reports that Mr. Bryan was delighted when two old farmers, one of them 79 years of age, hobbled to his Lincoln home to make campaign contributions. We should think he would be ashamed to take the money.

William J. Bryan says the Presidency is hedged about by restrictions. So far as Mr. Bryan is concerned, the chief restriction is the desire of his countrymen that he shall never be President.

ACCUSES BROTHER OF BEING INSANE

O. P. Eppinger, Son of Late Jacob Eppinger, Lodged in Detention Ward.

SAN FRANCISCO, July 21.—Isaac P. Eppinger, a son of the late Jacob Eppinger, was lodged in the detention ward of the Central City Hospital last evening about 7:30 o'clock. His insanity complaint, sworn to by his brother Maurice Eppinger, Eppinger was not examined last night, so the physicians were unable to make a report on his condition.

The Eppinger family has been much in the public eye for the last few years, due mainly to the peculiar financial methods of the head of the house, the late Jacob Eppinger, who died on the 20th of last month.

The extravagances of Isaac Eppinger, the son of whom complaint has just been made, are said to have been largely responsible for the financial difficulties of his father. Young Eppinger's escapades of late have grown more extravagant, and have led to the condition that made it necessary for his brother to charge him with insanity.

ENDANGERED PROPERTY OWNERS.

No property owner is secure against such a procedure, for if it is tolerated after complying with the ministerial requirements for the acceptance of his street work by the city and its assumption to take charge of it thereafter and preserve it in good condition, as he may do, it may be held by the proprietor that he must either submit to a "sell-out" or stand the effect of a wicked thoroughfare blighting his property and depreciating its value. Certainly Franklin street property values have been held down through the city's neglect to take care of the pavement of the street.

It may be mentioned that in the meantime, it has not overlooked Washington street, and it may be asked further, why is it so different between the relationship of Franklin and Washington streets and Broadway, the main artery of the business section?

There is a hint to the maliability in which the city's revenues are being expended and its resources diverted. Why should property that has been purchased for park purposes be devoted to a corporation yard? The Municipal Administration does it, however, and the Sixteenth Ward, as the property owners of the Sixth ward, have remained silent and raised no protest against this misuse of public funds and public property.

We are beginning to notice, however, that the administration is devoting its energies to the development of sections of the city with the city's bone in which it can best serve real estate speculation, in which apparently the present administration refrains from diverting funds authorized by the city council for the purpose to purposes entirely foreign to those for which the people handed them over.

ATHLETIC BABY HANGS TO RAIL

Child Falls Two Stories, Grabs Fire Escape, and Is Saved.

NEW YORK, July 21.—Most Milder training which twenty-month-old Helen Graf had received from her father, saved the baby's life when she fell from the fire escape on the fifth floor of her home. The boy caught and held to the fire escape, two stories below.

Joseph Graf, the child's father, is a foreman mason and an athlete of repute in Brooklyn clubs. He had taught Helen to hold onto a broomstick while he lifted her from her cradle and carried her around the room, thus developing the baby's muscles.

Mrs. Graf was on the fire escape hanging out clothes, and did not notice her child until after her. She looked around just in time to see the child fall through the hole of a fire escape. Mrs. Graf faltered. By a chance the child was so placed by the third floor fire escape, brushed the rat so close that her fingers always on the alert from her broomstick training caught the iron bar and held on. She was quickly rescued from her perilous position.

BEER WAGON DRIVERS TO PROFIT BY COMPROMISE

The recent difficulties that arose between the beer wagon drivers and the brewers and bottlers, will probably be settled in an amicable manner. An agreement has been framed which is satisfactory to both sides. It embodies a compromise on the points originally demanded by both sides. Under it, the drivers handling bottled beer are to receive \$23 a week, while those delivering in kegs are to get \$25 a week.

In the meanwhile the threatened strike has not come off, and the compromise will probably be arranged within a few days.

Why Ivory Soap, or any other, should be a valuable insecticide is hard to explain, but it is a fact. It has the advantage of not making the bushes unsightly as Bordeaux mixture does. SOCIETY SMART SET

Well-Known Musician To Return From Europe

'Engagement Announced Of Prominent Society Girl

The engagement of Miss Dolly Tarpey, daughter of M. F. Tarpey the well-known politician, to J. Paulding Edward, son of Mrs. Henry Butters, was announced on Saturday.

The announcement was made at a beautifully appointed luncheon, at which Mrs. Arthur Tarpey, sister-in-law of the bride-elect presided. The luncheon was given at the Hughes hotel in Fresno and covers were laid for twenty guests.

The engagement is of much interest as the young people are members of prominent families. The attachment has been suspected for some time but no one was quite sure, as Miss Dolly has had so many admirers. It was difficult to say who would be the favored one. At last the announcement is made and the wedding day appointed.

The interesting news was conveyed to the guests by clever little place cards containing the pretty secret.

The Tarpeys are now at their ranch at Tarpey, a little way out from Fresno, where they remain a greater portion of the year when in town they are at their Piedmont home.

Miss Tarpey is one of the beauties of the State—tall and graceful, with brown hair and eyes. She is an enthusiastic outdoor woman; devotee of tennis, golf and riding. She is considered one of the finest equestriennes in the State.

M. F. Tarpey, her father, is a well-known politician and has rich vineyards in the San Joaquin valley. He also has large mining interests in various parts of the State.

Edward is a graduate of the State University and is the electrical and mechanical engineer of the Northern Electric railway.

Mrs. Butters, his mother, is one of the social leaders on this side of the bay and his half-sister, Miss Mario Butters, is the fiancee of Victor Metcalf Jr., son of the Secretary of the Navy.

The wedding will be solemnized at the Fairmont Hotel, September 9, and promises to be an elaborate and brilliant affair.

NEWS OF TALENTED GIRL.

Such interesting news as one hears from Miss Winifred June Morgan. A recent home letter tells of how she celebrated her birthday.

She writes: "I am celebrating my birthday with a musical and have asked about twenty-five scholars and professor. He is in Budweis but may come in later. Sam Colbertson will play the Krutzer sonata (Beethoven); I palpitare (Paganini); Carmen fantasy (Sarasate); and Otello fantasy (Ernest). Colbertson is the fourteen-year-old son of an American (Pennsylvanian) who has lived in Russia for thirty years. He has the greatest repertoire of any living child and plays nothing that he played before he came to Sevcik, three years ago. He is to make his grand debut in Vienna with orchestra this November. He is really an American who speaks only Russian and German."

Miss Morgan has been studying vocal music under Wallerstein in Prague as well as the violin with Sevcik. At her birthday musical she sang several songs among the numbers was the song cycle from the Rubylat, written by Signor De Graas, her namesake.

At present Miss Morgan is the guest of Mrs. M. A. Huntington of San Francisco, at Franzenbad, Germany, as she was two years ago.

Mrs. Huntington is accompanied by her two daughters, Mrs. Gilbert

MISS DOLLY TARPEY, who will be a September bride.

Brooks Perkins of Pasadena and Miss Marion Huntington. They will remain at this famous watering place for a month.

Among the other Americans studying under Sevcik is Cedric Wright of Alameda. He is the son of Mr. and Mrs. George Wright and grandson of Mrs. Selden Wright. Before going abroad he was a pupil of Nathan Landsburger and showed unusual talents. He is making noteworthy progress with his studies.

Mr. and Mrs. George Wright are with their son at Prague.

STANFORD GIRL PLANS TRIP.

Miss Eulaville Sweetland, a graduate of Stanford will sail from New York September 15 for Naples where she will meet Miss Winifred June Morgan and they will travel together through Italy and Switzerland. Miss Sweetland is to remain abroad for an indefinite period spending her time in travel and in the study of languages and art.

Miss Sweetland is a San Francisco girl her mother died soon after her graduation from college and since that time she has made her home with Mrs. J. W. Orr. She is a Kappa Kappa Gamma sister of Miss Morgan.

At present Miss Sweetland, accompanied by Miss Flossie Orr, is visiting a married sister at the Yosemite.

MUSICIAN WILL SOON RETURN.

Miss Christina Rose who, with Miss Mollie Martin, went abroad to study

two years ago, will return to Oakland in August. The young ladies went directly to Paris for their study of the piano and remained there for a year. From Paris they went to Berlin where they continued their studies. Miss Martin is still in Berlin and will remain there indefinitely. Miss Rose did not favor the German teachers as well as the French and returned to Paris to complete her study before returning to this country. It is now planned that Miss Rose will be with the home folks in August and her many Oakland friends are preparing a most cordial welcome for her.

PARTY VISIT YOSEMITE.

A party of congenial friends who have recently made the trip to the Yosemite include Miss Hazel Wood, Miss Myrtle Wood, Miss Elizabeth Davis, Dr. Fred Davis, Eugene Blanchard and A. Blanchard.

APPOINTED TO ANNAPOLIS.

Perhaps one of the happiest and most surprised boys was Arthur Walton when he received a telegram last week announcing his appointment to Annapolis. He had previously received the appointment as alternate but the candidate in some manner failed and young Walton received a dispatch telling him to report at the naval academy in five days. There was a great hurry and rush but everything was arranged in time and on Sunday he started. A large party of friends were at the station to wish him all good success in his new undertaking.

Walton is a bright lad and has always taken a keen interest in his studies and a future awaits him.

GUESTS OF PARENTS.

Mr. and Mrs. D. M. Fenlon were guests of Mrs. Fenlon's parents, Mr. and Mrs. D. C. Fugatt of Oakland, for the Fourth of July holidays. Mr. Fenlon has held an important position with the People's Water company for several years.

TO MAKE EASTERN TRIP.

Professor and Mrs. W. E. Gibson will leave tomorrow for an extended visit through the East. They will include in their itinerary visits to Minneapolis, Chicago and New York.

Their return trip will be made by the way of Portland and Seattle. The professor and his wife have been spending the past month at their country home in Niles.

OUTING AT LONG BEACH.

The following well-known Oakland residents have gone to Southern California for an outing: Judge and Mrs. W. S. Williams, Mrs. William H. George, Miss Carol George, the Misses Evon and Blanche Mills and R. Scott Mills. They are to spend a portion of their outing at Long Beach.

QUEST AT LOS ANGELES.

Mrs. William Cornelius de Fremery, formerly Miss Edna Prather, has gone to Los Angeles, where she will be the guest of friends for a month. During her Southern trip she will visit the beach resorts.

TO JOIN THRONG OF BENEDICTS.

It is with the sincerest regret that the younger set of Oakland have learned of the approaching nuptials of Mr. L. F. Hudson and one of the belles of Vacaville.

Mr. Hudson is a very estimable young man and holds an enviable position with the Southern Pacific railroad at Thirteenth and Franklin streets. He is to join the innumerable throng of benedictos on the 9th of August and has the best wishes of his many friends.

RETURNED FROM OUTING.

Mr. and Mrs. J. C. Arnold accompanied by Mr. and Mrs. Frank L. Naylor of Berkeley, have returned from an outing at the Grand Canyon. Messmates Arnold and Naylor, with their sons remained in Southern California on the return trip for one week to visit friends.

HEART--TRIBUNE'S PAGE FOR WOMEN--HOME

Woman Rewards Woman With Queenly Sum of Five Dollars for Returning Over \$20,000

HACKENSACK July 21.—The dollars was the reward paid to Miss Edith M. Crooks of Overlook avenue this city for the return of an envelope containing cash and negotiable securities to the amount of \$20,000 which were found in the street. The \$5 was paid by a woman who concealed her identity by paying it through the Hackensack Trust Company to which she was going when she dropped the envelope.

The Crooks said she was satisfied with the reward. She is employed in the Surrogate's office on Court street here and saw the envelope in the middle of the street on her way to lunch. She returned at once to her desk and break the seal several \$100 bills and the

securities fell out. There was nothing to indicate the owner but on the envelope was the address of the Hackensack Trust Company. Miss Crooks telephoned there and Bernard Plympton offered to hold the cash and securities until the owner appeared. A few minutes after the envelope had been delivered to him a woman rushed into the office of the trust company and told of her loss. She directed Plympton to pay the reward of \$5 and gave the cash and securities into the keeping of the company. Miss Crooks is a daughter of W. P. Crooks former superintendent of the Simpson Methodist Episcopal Sunday School in Jersey City and has an insurance agent here.

KANSAS CITIZENS BY THE LAW SEE NO BEAUTY IN FEMALE GIMP, IN REGION OF GARTER, DISCLOSED BY THE DIRECTORE GOWN

KANSAS CITY This is the tale of a press agent's scheme that failed to make connections. At Electric park this week one of the vaudeville attractions is Miss Beatrice Harlowe, and that's really it too—with a support consisting of her sparing partner plain Jimmie Doherty. Miss Harlowe has just received one of those directorie gowns by express—the mail regulations are said to be too strict to pass them. When the press agent saw it he had an inspiration. Jimmie consented to the plan at once and Beatrice after little coaxing. The press agent had visions of riot and all that sort of thing if the directore creation was just turned loose among the park crowds off the stage. He saw columns of space devoted to her. "She's a sensation among the ordinary people of Kansas City made its crestfallen exit through the stage entrance."

"I'm so nervous," Miss Harlowe exclaimed last night when the gown was ready and the time had come to quiet her fears. Jimmie went along. She might need protection. You remember what happened in Paris."

When Ferullo had finished the first part of his band concert program and the crowd was streaming out of the music pavilion Beatrice walked right through the thick of it. Jimmie got ready to fight off the mob and Miss Harlowe began to scream. But there went not much.

Instead every one took one look at the woman in the no colored gown and just laughed. Then they passed on over and looked at the electric fountain.

"You'll excuse me," she added. "I've got to go in and put on some more war paint."

What Women Are Doing

LADY HENRY SOMERSET

His distinguished self is a temperance orator and a suffragette. She calls attention to the fact that 284 different petitions for woman suffrage have been sent to parliament. England is to have the next international suffrage alliance which now is in session in Amsterdam, Holland. The attendance at this world women's suffrage congress is pronounced by far the largest of any ever held before or since, present from twenty-three different nations. Among them are unfranchised women from Australia, New Zealand and Ireland, Nevada, Wyoming, Colorado, Utah and Idaho. Among distinguished unfranchised women of America is the wife of William Howard Taft, Republican nominee for the presidency of the United States. She agrees with her noted husband in favoring the ballot for women. She is recently reported as saying, "I have always believed that women should vote. Except in rare instances the influence of women on politics is for their elevation. It is truly said that communities where women lack civic pride are in worse shape than those where men neglect his prerogative. We men should be versed in every phase of politics and should know what every hinge means which has

a direct influence on the home environment. That is my idea of purifying politics and I think it is the only practical one."

THE RUSSIAN WOMEN

Are enroute to the first national congress of women. The government is granting the run at for this assembly exercised rigid control over the program and forbade discussion of the political rights of women also their civil rights either in Russia or elsewhere and prohibited the formation of a national council of women in Russia. But despite the conservatism of the bureaucracy the enterprising feminists of Russia are finding much to interest them in their proposed program left for them to arrange. Education, the marriage laws, the industrial position of women all present grave injustices. If a Russian woman wishes to visit a friend or relative living at a distance her husband must provide her with a pass which gives the date of her departure and the limit date for his return. This cannot be exceeded save by special extension from her lord. In the course the women's testimony is impressively declared to be less weighty than that of a man, the evidence submitted by an adult being of a greater value than that of a child, and the evidence of a man being greater than that of a woman. Although a Russian husband is allowed to appear in court to testify against his wife the Russian wife is not permitted to come to court to testify against her husband.

TAFT WILL DISCUSS ISSUES

Acceptance of the Nominating Speech to Contain Many of His Ideas About Campaign Matters.

HOT SPRINGS Va., July 21.—Three days more of diligent consideration and careful revision will be given by William Howard Taft to his acceptance speech of the official notification that he is the Presidential nominee of the Republican party.

Although the speech is to be supplemented in September by an extended letter of acceptance, it is the purpose of the candidate to make this earlier oration as brief as possible and concisely as may be possible his position on the surprising multitude of questions which must be dealt with in the campaign.

POLITICALLY IMPORTANT

The importance politically of thus announcing himself has been impressed upon Taft by the numerous political advisers with whom he has consulted and he has decided to take the risk of being tedious in the delivery of his speech of an hour and a half. In view of the thirty-minute talk he had at first intended would suffice. But there is much consulting yet to be done and undoubtedly many changes of expression will be made.

LIKENESS PAINTED

For some time Taft has labored over the speech until the early morning of yesterday instead of indulging in his usual golf game he listened to the reading of the speech from Frank B. Kellogg. Meanwhile he was gazing out on the links with a pleased expression while Antal Illes an artist of Budapest who speaks no English but led a life like likeness of the candidate onto a huge canvas for the Hungarian Republican Club of New York.

Kellogg has consented to assist in the revising process until Friday when Mr. Taft has promised him self that the work shall be finished.

CONFERENCE NEAR END

COLORADO SPRINGS July 21.—The conference of western Republicans with Frank H. Hitchcock, chairman of the Republican National Committee, was terminated from the Autens Hotel to the top of Pikes Peak today. The party of politicians was paired off by Hitchcock in order that the exchange of ideas might continue uninterrupted during the climb of the cog road train. Shortly after noon the party returned to the hotel and the conference of all the leaders was resumed. It is expected that this will be the final plenum conference that Hitchcock will call next Monday from Denver.

SOCIAL AFFAIRS IN HER HONOR

MISS EDITH JOHNSON.

Popular Girl Will Be Entertained by Her Many Friends in San Jose

Miss Edith Johnson, daughter of Attorney H. A. Johnson of 514 Ellis fourth street, Oakland, will leave for San Jose the latter part of the week to visit friends and relatives. Many social functions have been planned for Miss Johnson's home or by her friends in San Jose and her visit will be made as pleasant as possible.

Miss Johnson is well known in local musical circles and is popular among the younger society set.

PLUCKIEST DRIVER IN GLIDDENTOUR IS WOMAN

MRS. ANDREW CUNEO.

Trip Today Is Through the Maine Forests

PORLTAND Me., July 21.—The ten days run of the Glidden automobile tour which was begun at the usual hour this morning was arranged entirely in the State of Maine the start being from this city and the destination Rangeley Lake a distance of about 142 miles. The wet condition of the roads made the going difficult. There were several bad hills to be overcome.

HER THIRD TOUR

To Mrs. Andrew Cuneo the Glidden tour is an annual jaunt. She does not

look upon it with the same dread as do some of the timid tourists, however, but considers it a real pleasure. She is conscious of the first faint and burning pain at 1:00 p.m. but has been a constant since 1:00 p.m. this is a bustness engagement. A long time arranged by her husband left him 1:00 of the 1906 tour and she was sorry to miss that one.

Mrs. Cuneo did not have time to drive her car to Boston to get the motor oil, but shipped it there and did a bit of practice spinning before the formal start on the 16th odd miles was made.

FIRST WARD DEMANDS PROTECTION FROM FIRE

Council Recommends Immediate Relief

The City Council last night referred to the Board of Public Works the motion of Councilman Burns requesting the latter body to immediately organize in North Oakland fire apparatus of some kind as a means of protection from fire in that rapidly growing section which it was claimed now was not less than a mile and a half from the nearest fire engine house.

The appeal of the residents of this section was so urgent Mr. Burns said that if the board could do no better than supply a piece of apparatus which had been fitted with active serial from the heart of town it would be appreciated until a modern appliance could be secured.

APPEAL OF CLUBS

The discussion was opened by the reading of the following resolutions of the Alcatraz and North Alameda Improvement clubs:

Whereas the large district comprising North Oakland is without protection and the great number of new homes being built increasing the risks to such an extent that immediate protection is necessary, therefore be it

Resolved That the Alcatraz Improvement Club and the North Alameda Improvement Club put immediate relief for fire protection and recommend that a fire engine be installed in this district at once.

ALARM BOX, BUT NO ENGINE

Edward Golden said the houses were getting pretty close together in that section. The Council had given them a fire alarm box. The people would be more pleased if the council would give them something in the line of fire apparatus to answer the alarm. What was the use of a whistle when there was nobody to answer? The nearest engine was a mile and a half away from the district. The first thing they would know there would be a conflagration out there and the Council would be responsible for it. The speaker asked that a chemical engine if nothing better, be located in that section.

CITY GETS TAXES.

J. Perry said there was no fire protection whatever in the district. The taxes which were coming in from there were sufficient to warrant a first-class chemical engine being located in that district. Relief was wanted at once and not after a fire had taken place and caused a great destruction.

Mr. Tyner said the chairman of the finance committee always bid many of figures, but that gave the people of the section a sense of protection against fire.

Policy & Orning Laxative the new laxative stimulates but does not irritate. The best laxative. Guaranteed or money back. Sold by all druggists.

Democratic Leader Passes Buck in Matter of Alleged Contempt of Labor Leaders.

FAIRFIELD Lincoln, N. B., July 21.—The action of Justice Anderson of the Supreme court of the District of Columbia in citing Samuel Gompers, John Mitchell and Frank Morrison to show cause why they should not be punished for contempt for alleged violation of an injunction against the American Federation of Labor and its officers in the Buck Stove and Range Company case has excited considerable gossip here.

W. J. Bryan is taking the keenest interest in the matter but will make no comment upon it. This is coming directly with plowshare of the plank of the Democratic platform relating to contempt committed outside the presence of the court and it is believed will be seized upon by Bryan as an illustration of the need of a law which will accord to the accused a trial by

In spite of statements to the contrary, Bryan announced today that he did not contemplate going into Vermont in any speech making tour in the expectation of influencing the election in that State in September.

THE LOVE TALES OF HOFFMAN AT IDORA

Interpretation of Great Master's Music Is Good at Park.

(By Betty Martin.)

Offenbach's delightful music found fitting interpretation last evening at Idora Park, when "The Love Tales of Hoffman" were given for the first time at Oakland.

"This opera is the most ambitious yet offered by the park management and the atmosphere at the theater, as well as the enthusiasm evoked by the performance, gave full justification to Charles Swickard's belief that Oaklanders would quickly respond to music of the higher class.

The "Love Tales of Hoffman" represent German symbolism in musical dramatic form. There is a prologue, three acts, then an epilogue. The first act is a sad comedy in Rathskeller with astonishing effect.

The dark setting of the room; the right regalians of the men; the steins; the flowing bowl, make a picture worth remembering. Here it is that Hoffman, a disappointed young German poet, relates in song his three affairs; each of which ended in destruction of his dream.

N LOVE WITH DOLE.
The curtain next disclosed a scene in Italy, where the impressionable Hoffman has fallen madly in love with an automaton—a wonderful doll manufactured by a master physiologist named Spolanian, assisted by the mountebank Dr. Coppellus. The doll, when wound up, sings, talks and even dances. Coppellus sells to Hoffman a pair of magic glasses which makes the wearer believe the doll is real.

Through exposure brought on by Hoffman, Hoffman realizes that his Italy, cold and heartless, an arid land, is nothing but bying into a man being a surpassing lovesick.

Next is Hoffman, and his good friend and companion Niclausse discovered in Venice at the house of the celebrated beauty Julietta—a heartless girl with lovers a plenty. She leads Hoffman on to a decleration of the passion which nearly proves his ruin. He becomes involved in a quarrel with mother of Julietta's admirers, a duellist, a dagger and the dagger kills Hoffman, aided by Niclausse, seeking safety in flight. But as he leaves the city Julietta is seen sailing away with her arms about the neck of another. So does Hoffman the fickleness of woman's heart.

The third scene is in Munich. Hoffman this time has met the beautiful and adored in a room, where he anticipates his passion. Death intervenes, carrying off the young woman he as truly loved. Then do Hoffman fully realize the futility of his hopes.

TIRRING EPILOGUE.
The epilogus is sung in the tavern. Hoffman, his story ended, raises a glass to his drinking chums. Finally, deeply intoxicated, he falls across the aisle, when the poet muse appears, declaring that in poetry alone can be attain realization of his hopes.

This opera, so new to the majority of the audience, was, in its way, a revelation of the strength of the Idora Park Company. It brought with it several surprises. In the main, the plot is well known, but for realization Arthur Messmer, the retiring, had a him all the old fire and sweethearts which once made him the idol of all patrons. He was in remarkably good voice last night, and as Frantz, servant to Creepsel, won repeated recalls. Nor were the audience content until joined with Edith Mason, Thomas Persson, Joseph Osgood, Charles Swickard to several enthusiastic curtain calls. Messmer was in two difficult characters during the course of this opera, while the others mentioned excepting Hoffman and Niclausse, represent three person-lites.

DESERVES CREDIT.
Swickard, who aduated "The Tales of Hoffman" from the German, deserves many compliments for the manner in which it is staged at Idora. Also his acting was good, particularly as the hypnotist, Dr. Miracle. Edith Mason has a particularly trying part, both physically and musically, but she acquitted herself splendidly.

Thomas Persson, on the burden of the singing lay, was in better voice during the car or part of the evening than toward the latter. That, perhaps, was due to his vigorous response with encores. Fogarty was up to his usual standard, and Bernice Holmes both sang and looked well.

It was as though the opera has harm. There were few, if any, outside of the barcarolle and the solo sang by Miss Holmes, "That Little Brazen Fogato," which would be sung on the outside.

But altogether nothing better has been seen musically in Oakland since the production last fall of Madame Butterfly.

SERIOUSLY MANGLED BY A SANTA FE CAR

FRESNO, July 21.—Frank Martin, a Mexican milkman, employed at Sanger, died this morning as the result of being run over at midnight by a Santa Fe freight car. He was intoxicated and left over in a buggy. The horse wandered on a railroad spur next to the Fassett burner yard. Martin was evidently asleep. A freight car was switched down the spur. The buggy was mashed to kindlingwood. Mr. Martin was horribly mangled but legs became cut off. The horse was not slightly injured. The accident was not discovered until an hour later.

IN THE STATE

Injured by Horse Falling Santa Rosa, Calif., Mayor of the town and his wife, proprietors of the Alexander Hotel in San Francisco and Morgan's Park in Oakland, were so seriously injured in a fall on Friday last that the horse was riding rear up and fell backward on him that he is not expected to recover. He was about to start on the road when the accident occurred.

Home Burned: Marysville. The home of M. J. Cooney, president of the United States Diamond Mining Company, operating near Crosville, was destroyed by fire yesterday and the damage amounted at about \$5,000. The company's books, which were in the house, were saved.

Hot Weather Prevailing: 11ish—Usually hot weather has prevailed here for several days, the thermometer ranging from 104 to 108 degrees. Forest fires dangerous proportions have been reported in the hills around the city, and state authorities are not known to have taken any step to suppress them. Sorry He Didn't Kill More: Marysville, Calif.—Edmund Jones, at present in jail at Old Sacramento, was shot in the head on July 10, 1908, and died on July 11. Today that his only regret is that he didn't kill other men in the camp. He had to do so he could die happy.

CLUB STARTED IN LOWER FRUITVALE

Will Promote Interests of District, as Well as Fraternal Feeling.

FRUITVALE, July 21.—EDITOR TRIBUNE: Lower Fruitvale, which is a section located between East Fourteenth street and the canal, and which lies east of Park avenue, is a locality which has been much neglected by those whose interests are supposed to reach all. As a result, the men of that community have decided to the condition of affairs, and in the spirit of aggressive American independence have banded themselves together for the promotion of good citizenship and municipal improvement.

They have organized a club which they call "The Social Improvement Club." The aims and objects are to promote fellowship, neighborhood, good citizenship and good "citizenship."

The majority of the voters of the district are interested and the result is that strong set of officers have been elected, and the officers are backed by an enthusiastic and determined group of men.

The club holds an open charter for the next sixty days and it is expected that most of those who have not already joined and who stand for the best things will join. The club meets every Tuesday evening at 8 o'clock in the Ward Memorial Chapel.

SAOOON KEEPER LOSES LICENSE

In an effort to prevent the City Council from revoking his saloon license, such step having been recommended by the License committee, George R. Scholz, who conducts a saloon at 513 Seventh street, appeared at a meeting of the council last evening, presented by attorney Richardson and requested that the case be continued for two weeks, in order that he could cross-question those who had given testimony against him and to secure witnesses for himself.

PETITION DENIED.
This was denied on motion of Councilman Oberholzer, Councilmen Altkemper, Elliott, Everhardt, Jackson and Mulligan voting to revoke the license, while Councilman Burns and Stachler voted no.

Councilman Burns explained his vote by saying that he favored revoking the license but thought Scholz should be given a few days in which to dispose of his belongings.

"I believe in revoking the man's license," said Burns, "but I don't believe in sending him to the arms house at the same time."

Councilman Stachler wanted the matter over two weeks in order that persons holding stock in the building could protect their interests.

SOCIAL SWIM IS LIVELY AT SANTA CRUZ

SANTA CRUZ, July 21.—The Social Dance at the New Idea Pavilion was a big success last night. The excursionists from San Francisco, Oakland and the summer cottagers were much in evidence. Mrs. Lander, one of the premier sporting editors of the coast, led the grand march with Miss Irma Tribune of Oakland.

This opera, so new to the majority of the audience, was, in its way, a revelation of the strength of the Idora Park Company. It brought with it several surprises. In the main, the plot is well known, but for realization Arthur Messmer, the retiring, had a him all the old fire and sweethearts which once made him the idol of all patrons. Stock and Bond Exchange

(By J. C. WILSON, STOCKBROKER.)

NEW YORK, July 21.—London was closed to take profits in American stocks today, and the resulting declines had a temporary effect on the market here, but there was a sprinkling of advances among the railroads and specialties.

The market closed easy. Westinghouse, the market's big issue, closed off again in sympathy with the fall of 14 in Union Pacific and St. Paul, but the declines met new buying, which caused the market to yield again in the closing dealing.

United States Steel moved upward on large absorption and strength developed a day ago.

Reading was heavily bought at a fractional advance, with some stabilizing effect on prices. Profit-taking sales were reported on the railroads, Canadian Pacific, St. Paul, Canadian Pacific, Missouri Pacific, Illinois, Kansas and Texas, Chicago and Milwaukee, United States Steel, Atlantic and Great Northern, Central and American Locomotives were forced 1 below last night and Colorado Fuel 14. Prices rallied before the first hour, excepting the market's support of Reading, which lifted it a point.

After Reading had risen 1, the rise was checked and the general list reacted again, the tone became firm again.

Bonds were irregular. Following were the closing prices on the Stock Exchange today:

Fresno Vineyardists' Low Prices
Lead Japanese Contractors to
Cut Down Prices for
Grape Picking.

FRESNO, July 21.—At a recent meeting of between fifty and sixty Japanese labor contractors in this city it was decided that because of the decreased price to be realized by vineyardists, it would be advisable to adopt a lower scale than last year.

The charges for grape picking will be 2½ cents a trap, a reduction of one cent from last season.

For grape picking, the charge will be \$2.25 and \$2.50 last year.

Four thousand men will come from all parts of the State in a month.

Excelsior avenue, from Lake Shore avenue to Bay avenue.

J. P. Brantley be granted permission to construct cement sidewalk five feet wide in front of his property, on east side of Thirteenth avenue.

William A. Walker be granted permission to construct sewer in Dean street, from the telephone pole to the present sewer to a point forty feet northward.

The City Engineer be directed to establish grades on Livingston street and submit plans and specifications to grade, curb, macadamize, etc., East Twelfth street.

Resolution of intention be adopted to change grades on East Seventeenth street between Nineteenth and Twenty-first avenues, to grade, curb, macadamize, etc., Fifteenth avenue, from East Sixteenth to Fourteenth avenue.

Monday, August 3, 1908, at 8:30 p. m. be set as the time for hearing appeals of P. McDonnell and Z. J. Hatch in the matter of constructing storm sewer in Temescal creek.

An ordinance establishing side of sidewalk on East Sixteenth street, from Fourteenth and Fifteenth avenue, be passed to order.

A resolution accepting dedication of certain land for street purposes as shown on map of Robley Terrace be referred back to the Council without recommendation.

TO CONSTRUCT SEWER.

On recommendation of the drainage and sanitary committee P. Lavin was granted permission to construct an eight-inch sewer in Dean street.

All matters pertaining to an appropriation for the health officials was continued for one week.

Over Thirty-five Years.

In 1872 there was a great deal of diarrhea, dysentery and cholera infantum. It was at this time that Chumbawamia Remedy was first brought into use. It proved more successful than any other remedy of treatment and has for thirty years remained as the remedy for a condition of the body which has extended to every part of the United States and to many foreign countries. No drugstore or druggist will recommend it when their opinion is asked, though they have other medicines that pay them greater profit. It can also be used for grippe, rheumatism, almost severe and dangerous cases. For sale by Osgood Bros., 7th and Edwy, and 12th and Washington streets.

OPTICAL DICTIONARY

Search all the optical dictionaries and you will find no word of greater importance than Kryptok.

A lately improved and brought to perfection the Kryptok is the greatest eye-help of modern times. Its construction is unique and the comfort it brings to the eyes can be appreciated only by those who wear it.

The Kryptok does away with the old style Bifocal made by pasting a small lens to the foot of a large one, yet gives clear distant vision and clear reading vision in one pair of glasses.
